

LP Lynx Self Emptying Spiral Mixers

Description

Self-emptying spiral mixers lines, composed of spiral mixer with fixed bowl and hydraulic lifter.

Dough capacity from 120 kg to 200 kg and fitted with 2 motors on the spiral mixer and 1 motor on the lifter. Spiral Action is dual speed with bowl inversion available on the first speed.

Easy dough extraction thanks to the bowl jog push-button. Control panel choice between two electro-mechanical timers SITEC 72x72 or electronic control panel + bypass selector. Mobile bowl cover choice among: stainless steel grid, ABS mobile bowl cover, transparent PMMA mobile,

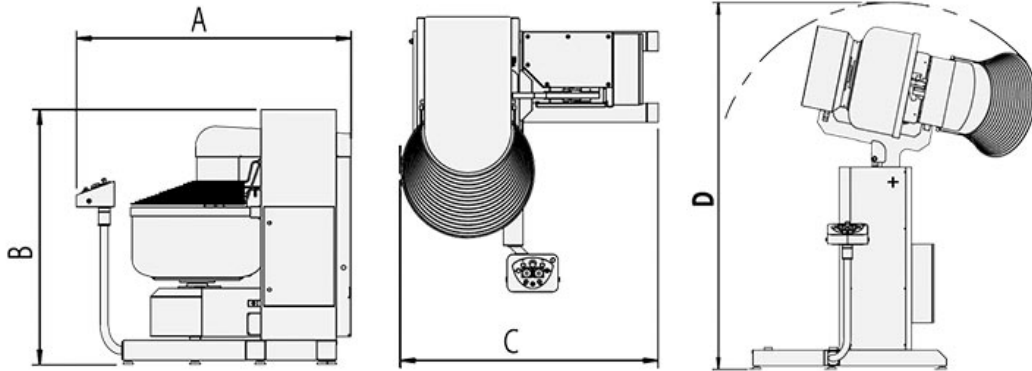

Discharge on one side only -choice between right or left. Two possible discharge heights: onto table at 1400 mm (model LYNX-B) or into divider at 1900 mm (model LYNX-T) LYNX Line conceived for dough mixtures with hydration greater than 55% with European flour.

LYNX-R Line, equipped with double spiral transmission, straight breaking bar and reinforced spiral motor and then conceived for stiffer dough mixtures with hydration greater than 45% with European flour Lines suitable for an artisan use (3 cycles per hour, 10-12 hours per day).

Available control panels: two electro-mechanical timers Sitec 72x72 or electronic control panel + bypass selector.
