

Vitella Semi Automatic Divider

Description

VITELLA have designed and built a line of dough handling machines that featured a groundbreaking clean and unmistakable design; from those early successes has risen a new generation of dough dividers, unique not only in design but concept. No detail was left to chance, every facet has been taken into consideration in order to give you a reliable, safe and visually pleasing tool for achieving excellent results.

We have thoroughly studied the workflow of pastry and bread makers of all sizes, to bring you simple and practical solutions. Every millimeter of the dough dividers has been planned, inside and out, to bring you perfection: perfect in the ease of use, materials and finishes, assembly and disassembly operations, safety features and ease of cleaning.

Within the same model, we offer the possibility to combine different types of cutting and shaping. Finding the ideal machine for your work has never been easier and using it has never been so simple.
